SELECTMEN and TREASURER
of the town of

PITTSFIELD

NEW HAMPSHIRE

Together with the Reports of the
Road Agent and other Officers
of the Town for the Fiscal Year
Ending December 31, 1959

NH
352.07
P68
1959

Public recognition for years of service to her home town came to Mrs. Doris Drolet in January when she was singled out as Pittsfield's 4th Citizen of the Year. The award was announced by Selectman Harvey Marston at the annual Citizen of the Year dance sponsored by the Pittsfield Swimming Pool Committee.

A COMMUNICATION

December 21, 1959

Board of Selectmen
Town of Pittsfield
New Hampshire

Dear Sirs:

I am pleased to notify you that I intend to give to the Town of Pittsfield, New Hampshire, the sum of $500.00 for Band Concerts for the 1960 Season. I would thank you to please so notify the citizens of the Town at the March 1960 Town Meeting. I was very much pleased with the Concerts which were given last summer, and I trust that the Concerts during the coming summer will be equally fine.

I make this gift in memory of my father and mother, the late Mr. and Mrs. Nathaniel S. Drake, both of whom took a great interest in these concerts.

I am, this day, making a payment of $500.00 to the Town Treasurer.

Sincerely yours,

J. FRANK DRAKE

Selectmen of Pittsfield

SELECTMEN'S REPORT

The past year has seen the last strip of the upper city road blacktopped to the Loudon town line. This was on the previous years schedule but extensive repairs to the road and culverts on South Pittsfield road prevented this from being completed at that time.

The Town Salt Shed is well under way and should be completed by Town Meeting, this structure also housing a workshop.

A short stretch of Tilton road, sorely in need of repair, was taken up this year, a new base put in, slopes and drainage corrected and resurfaced, correcting a situation of long standing.

This past spring saw many a washout in our outlying districts adding greatly to our overall highway expense and making us further believe that a long range program whereby we could regrade and top all existing dirt roads within our boundaries necessary.

We wish to commend again Col. J. Frank Drake for his generosity toward our concert programs and in other programs which at this time we will not elaborate on.

The Pittsfield Swimming Pool Committee have gone a long way this year toward their dream of making for the citizens of Pittsfield a pool and reacreation area. It is coming close to being a reality, in its completion, a road having been built into the area and a spacious parking lot adjoining, and new pipe laid on the bed of the pond to supply the canning factory, just to mention a few of the improvements. The organizations and individuals of this town have been most generous toward this project, the biggest benefactor being the Pittsfield Rotary, our hats off to you one and all for your contribution to the ultimate betterment of the Town of Pittsfield.

Lest we forget, once again we wish to thank Ralph Connors for raising the guard of Old Glory over our War Memorial every fair day this past year.

If we could but live in peace and harmony with our fellow man and neighbor in our community we might then have hopes that this good will would spread throughout the breadth of our great land and even throughout the World, thereby making forever unnecessary to place another plaque upon our existing Memorial. To this end we pray that we might all strive.

BUDGET OF THE TOWN OF PITTSFIELD, N. H.

REPORT OF THE TRUSTEES
OF CARPENTER MEMORIAL LIBRARY 1959

The report of the library trustees will be brief.

The adding of new and needed equipment to the library has continued during the past year. Children's tables and chairs have been painted in bright, cheer–colours. Additional chairs have been ordered for the main library so that seating will be ample for students doing reference work at the library.

The Jenkins Memorial Room has been used greatly during the past year and the coming year promises even greater use of this fine room.

Many new books have been steadily added to the library during the past year. Some of these were purchased by the library — others were kindly added to the library by local people with an interest in their library and the growing generation.

We are happy to state that the use of the library by students of all age groups has increased. This is indeed gratifying, and we look forward to even greater activity during the coming year.

Circulation report for the year is as follows:

Adult Books	7,124
Juvenile Books	4,070
New Books	408
New Registrations	367

RALPH C. VAN HORN
Secretary

FINANCIAL REPORT

CARPENTER LIBRARY TRUSTEES

		$9,860.17
Balance Cash on Hand January 1, 1960		$50.00

JOAN RIEL
Overseer of Public Welfare

FIRE AND POLICE SIGNAL SYSTEM REPORT

There was a total of 37 alarms over the alarm system, nine still alarms and two calls for the resuscitator. Tanker was called out six times for outside help. Fire alarm system completely out of service Aug. 16th caused by an electrical storm.

The police signal gave no trouble.

Two street sirens were installed, one at the corner of Elm and Main, the other at intersection at Depot Square. All three pieces were obtained at no extra cost to the town or department.

At the closing of Pittsfield Leather Co., our alarm system had to be changed. It was taken over by Doris Howe, who receives the calls by the Red telephone system and No. 71 box is pulled by her.

Engine No. 3 (1941) pump had to be completely overhauled and Engine No. 4 (1946) pump partially overhauled.

This year another room has been painted and papered (this was last done about twenty five years ago) and is used by Civil Defense Personnel. The kitchen was also papered and painted, large amount of this work was done by members of the Fire Department.

The following donations were received by the Department: Electric stove, white sink and a refrigerator.

Recommendation

The fire house needs painting very badly.

Respectfully submitted,

CLARENCE E. ROBIE
Chief of Fire Department

WALTER HALL
Superintendent of Fire Alarms

MUNICIPAL COURT REPORT

January 1 1959 to December 31, 1959

Number of Cases		102
Criminal	59	
Small claims	34	
Parking	6	
Juveniles	3	
Total Receipts		$546.00
Paid:		
State Motor Vehicle Department	$261.00	
State Fish and Game Department	18.00	
Town of Pittsfield	267.00	
		$546.00

EDMOND J. STAPLETON
Justice

REPORT OF POLICE DEPARTMENT

January 1, 1958 to December 31, 1959

Chief:	
Number of hours worked	2,134
Number of Miles paid by Town	3,847
Number of miles actually driven	5,014
Department:	
Telephone calls received (private and police phone)	816
Persons before the Court (Various offenses, not including juvenile)	34
Persons given a night's lodging at the jail	6
Auto accidents investigated	46
Doors found open and reported	27
Complaints investigated	673
Total number of hours worked by department	3,598

Last winter Roland Blake was appointed a police officer and has been able to tag or remove cars that have been parked all night in the streets, especially when plowing snow.

This year has shown a sharp drop in motor vehicle violations and also on juvenile complaints brought before the court, but there has been an increase in the more serious offenses.

DAVID J. CUMMINGS
Chief of Police

Child Health Conference:	
Number held	1
Total Attendance	31
Immunization Clinic:	
Number held	3
Total Attendance	90

Very truly yours,

GERTRUDE J. SNOW
Public Health Nurse

Bureau of Public Health Nursing
N. H. State Department of Health

Prevention is Everybody's Business

The year 1959 was forunate from a forest fire standpoint. New Hampshire had the best record in the nation. Fewer acres were burned, suppression costs were substantially reduced and damage to woodlands held to a minimum. The record resulted from a combination of favorable weather conditions, an alert warden service and a cooperating public.

Yet, despite all this, there still persists a disturbing note

58%, or 6 out of every 10 fires in 1959 were caused by careless smokers and debris burners.

10%, or 1 out of every 9 fires was caused by children.

Careless, indifferent, thoughtless and independent minded individuals and failure of parents to properly supervise children and keep matches out of their reach, annually cause these unnecessary fires which cost large sums to extinguish and cause extensive damage. The elimination of these three causes of fire would radically change this picture. The rules are simple.

1. Before burning, secure a permit from your local forest fire warden — the law requires it.
2. Be sure to properly supervise your burning
3. Make certain your fire is DEAD OUT before leaving it.
4. Don't throw lighted matches, cigars and cigarettes from moving vehicles — use your ash tray.
5. Don't burn at home — Use your town dump and save yourself much possible difficulty, both personal and financial.

NUMBER OF LOCAL FIRES	2
NUMBER OF ACRES BURNED	2½
NUMBER OF PERMITS ISSUED	58

THOMAS J. KING
District Fire Chief

GEORGE A. REED
Forest Fire Warden

AUDITORS' REPORT

February 16, 1960

We hereby certify we have examined the accounts and books of: Tax Collector, Town Treasurer, Town Clerk, Trustees of Trust Funds, Selectman, Library Trustees, Overseer of Poor and Road Agent.

E. J. STAPLETON
WAYNE B. EMERSON
PHILIP W. SHERBURNE
Town Auditors

JASON E. BOYNTON

REPORT OF SUPERINTENDENT JASON E. BOYNTON

To the Pittsfield School Board and Citizens of the Pittsfield School District I respectfully submit my third report as your Superintendent of Schools.

GENERAL

In 1958 – 1959 approximately 45 million individuals were enrolled in some type of educational institution in the United States. One person in every four alive today is participating in some organized program of education.

Although education is a function of State Government, the control is left with the local communities and elected representatives of such communities. The citizen by his payment of property taxes supports a major portion of this vast undertaking and has every right to question and investigate the type of service being provded. More than a right — it is a responsibility of good citizenship — and in the final analysis, the direction which education takes will be the direction which resolute citizens give to their local educational structure.

There is much evidence that there has been increased interest in education during the past year. Much interest springs from the increasing costs of schools and the resulting impact on property tax rates but this is not the only reason. We as a people have been shaken from our complacency. Russia challenges us in the area of scientific discovery. Other nations are manufacturing products which prove competitive in terms of both quality and price. These nations have developed much industrial "know how" which we thought was our forte.

A high quality of educational opportunity is being provided and higher standards of educational achievement are being established.

STAFF

There were no changes in staff at the Memorial School and only one change at the Grammar School. Mrs. Marjorie Lawton replaced Mrs. Shirley Corrette in grade 5. Miss Margaret Sanborn replaced Mr. John Anderson in the area of foreign languages; Mr. Winthrop Alden replaced Mr. Raymond Birt in Secondary Social Studies; Mrs. Emelyn Krause replaced Miss Margurite Edwards in Home Economics. Mr. Ira Clark accepted a position in Goffstown and changes were made in assignments, with Mrs. Janet Tibbetts joining the staff in the Junior High area. Mrs. Eulah Rand is teaching one division of the sixth grade replacing Mrs. Flora Perkins who was assigned to the departmental junior high. Mr. George Hall accepted a position at Brewster Academy and was replaced by Mr. Rocco Bruno.

We were indeed fortunate to have so few changes in the two elementary schools. Educational progress is directly related to the retention of competent teachers. The teachers employed this year as replacements are working cooperatively and effectively to provide quality instruction and our veteran teachers are competent and dedicated.

ENROLLMENT

The School year 1959 — 1960 opened with an enrollment of 575 pupils, which number was 7 less than the total enrollment depicted in the projection printed in the 1958 School District Report. Although the projection showed only 604 pupils for 1960–1961, we now expect approximately 640 when school opens in September of 1960.

One significant observation comes from a study of projected enrollments. The early grades have enrolled more pupils than anticipated and these pupils will swell the totals as projected for another six years. Every useable space is being utilized at the High School and as these large groups move into the High School grades, more rooms will need to be provided. Serious thought needs to be given to determine how we are going to take care of the growing school enrollment.

ROOM REQUIREMENTS

An additional room at the High School was required for the additional Junior High Division. Classrooms were already critical for grades 9 through 12 but a way was found to use Room 107 for one of the sixth grade classrooms. This room had been used as a High School English classroom. At the start of school in September more than forty students elected civics but due to the room shortage, only one division was formed. The Science Laboratory was used for math classes and the Science Survey class met in the commerce room. Plans call for the purchase of ten multi–purpose desks for the commerce room to provide adequate desk space for students who meet there for other than commercial subjects. The Home Economics room has been used as a study hall. These arrangements must continue for the 1960 – 1961 school year. The problem becomes further complicated by an enrollment increase in grades 9 through 12 from 172 students this year to an expected 196 students in 1960 – 1961.

HIGH SCHOOL PROGRAM OF STUDIES

The requirements of a "comprehensive high school" program are met by the 39 different subjects which are offered.

The following list of subjects, showing the grade level and the number of divisions planned for 1960–1961, is presented for the information of all concerned.

SUBJECTS	GRADE	DIVISION
Algebra I	9	1
Algebra II	11	1
Biology	10	2
Bookkeeping	12	1
Civics	9	2
Chemistry	11	1
Contemporary Problems	12	2
Driver Education	10	1
English I	9	2
English II	10	2
English III	11	2
English IV	12	2
French II	10	1
General Business	10	1
General Mathematics	9	1
General Science	9	2
Home Economics I	9	1
Home Economics II	10	1
Home Economics III	11	1
Home Economics IV	12	1
Latin I	9	2
Office Practice	12	1
Personal & Family Living	11–12	2
Person Typing	12	1
Physical Education	9–12	8
Physics	12	1
Plane Geometry	10	1
Science Survey	12	1
Shop I	9	1
Shop II	10	1
Shop III	11	1
Shop IV	12	1
Shorthand I	10	1
Shorthand II	12	1
Advanced Math	12	1
Typing I	10	1
Typing II	11	1
United States History	11	2
World History	10	2

DR. WHITE'S COMPLETE COURSE IN HIGH SCHOOL PHYSICS

Science instruction has been strengthened through the use of 163 films which Pittsfield is sharing with four other schools; namely Alton, Brewster Academy, Hampton and Laconia. These films have been developed especially for smaller high schools where adequate demonstration apparatus could not be provided. The subject matter content is up to date and the academic quality is unusually high. Students successfully completing the course will be very well prepared for college courses in Physics.

EDUCATIONAL TELEVISION

Educational Television is being used on an experimental basis. It is too early to appraise this new development but it is being used successfully to enrich and strengthen classroom teacher presentations.

IMPROVEMENTS AT DRAKE FIELD

For several years surface water has bees eroding the built up section near the playground slide and although fill had been provided the condition was becoming worse. The fence needed to be realigned and firmly secured and the stone and concrete steps needed to be rebuilt.

Mr. J. Frank Drake noticed this unsightly condition and proposed to have the necessary repairs made at his expense. Mr. Fred Foss made specific recommendations, which included two catch basins, some 115 feet of cement pipe laid underground to another drainage system which empties into the river, grading the parking area and covering that area with hot top, rebuilding concete steps leading from the parking area, adding loam and turf to the embankment, and repairing the fence adjacent to the parking area.

Mr. Drake's great generosity is appreciated.

Other lesser projects included repairing playground equipment, clearing unsightly areas, trimming trees and replacing fill under the much used playground equipment. Any unsafe conditions were corrected and the grounds were well cared for by Kenneth Pierce of the janitorial staff.

BUILDING MAINTENANCE

Considerable painting was done during the summer months. All buildings were given the regular cleaning. We are receiving excellent return for the dollars spent on repairs and replacement since much of the work is done by Mr. Ames and others of the janitorial staff.

TRANSPORTATION

Our two new 54–pupil capacity school buses have greatly improved our overall transportation service. Mr. Irving Ames and Mr. Herbert Emerson are the regular drivers.

In school business, as in all endeavors, there is room for

improvement. We welcome suggestions and pledge our best efforts to maintain and strengthen public education in Pittsfield.

I wish to take this opportunity to express my sincere appreciation to the Pittsfield School Board, to all School Personnel, and to the Citizens of Pittsfield for their cooperation and support this past year.

Respectfully submitted

JASON E. BOYNTON

Superintendent of Schools

Adjustment Note

A tuition check, payable to the Pittsfield School District was received from a parent and was deposited prior to June 30, 1958. After the books were closed for the 1957–1958 school year we were advised that payment had been stopped on this check and the bank issued a debit memorandum, which is the only confirmation of this action that we have.

Note. On the payment side of the F-3 Form we have an entry; namely, Debit Memo to the amount of $195.00. This represents a bookkeeping adjustment.

REPORT OF THE HIGH SCHOOL PRINCIPAL

To the School Board Members, Superintendent of Schools, and citizens of Pittsfield: It is with pleasure that I submit this, my annual report to you.

Much has been written about our schools and education, it is continuing to be so, with the results that it has aroused our citizenry to evaluate their school. This has been a good thing, for only by democratic action and lay participation can we make our schools better. We, in Pittsfield, should be proud of our schools and continue to work and support them in order to make them better.

The attempts of our High School administration and faculty have been to make the school a dignified institution with its primary responsibility the development of academic competence. It has been our attempt to put all school actitivities in their proper perspective, taking into account that no extra curricular activity be allowed to interfere with academic work. All teachers have subscribed to this policy and discourage non-academic activity during class time. Extra curricular activity is confined to the appropriate period in the morning and after school.

An honest attempt has been made in our school toward quality education. Much new knowledge has come about in the last decade which means that additional effort on the part of our pupils is necessary. All knowledge cannot be gained from the textbook or from the teacher, much of what a person retains is what he has gained for himself. The tool that we employ to gain this objective is homework, work done independently that reflects a qualitative effort. Teachers are asked to assign a normal and constant amount of work to a pupil so that it will arouse his cupsity, challenge his ability, and improve his knowledge. This activity is not to be restricted to any grade level but to be extended to all pupils in our school. We sincerely enlist the cooperation of the parents to provide a place to study in the home, encourage this type of intellectual activity, and hold out to their children a good sense of values.

In the past year we have been making an attempt to evaluate our educational product with our testing program. Our program consists of an achievement test in grade six, seven, eight, ten and twelve; intelligence tests in grade nine; a guidance battery, administered by the University of New Hampshire and made up of five different tests measure different aptitudes and interests in grades eight and eleven, and a vocational aptitude test, administered by the State Employment Security Agency, in grade twelve.

These tests give us some insight into a group or an individual, as well as confirm much of the observed behavior. In dealing with test scores we must all recognize that scores differ from group to group as well as from individual to individual, therefore it is difficult to build generalizations. I should like to make an attempt to show what we have found as a result of testing.

It has been encouraging to see both High School groups in the upper quarter in Language and Reading comprehension, and this factor seems to be true throughout our school. Our English scores do agree with the capacity of the pupils tested and do indicate differences. In the Sophomore Testing Program we found that of the 39 pupils, 25 were above the 50th percentile. The pupils who continue to work in the field of mathematics continue to rank high. Our testing would indicate that it might be well to extend our offerings in mathematics so that more might participate in the program.

Other strength was revealed in the areas of written expression, general vocabulary, and Social Studies background and interpretation. Achievement in science varied from group to group, while test scores indicated a need to strengthen our literature offerings for all grades.

The Iowa Basic Skills Tests given in the Elementary and Junior High indicates the grade level on which the child is acnieveing, but what is more important is the span of growth a child makes in any given year. The growth pattern is available to parents in conference with the teachers, and is better understood by this type of meeting.

Everyone recognizes changes and improvements in our educational tools and techniques, such as our current Physics films, Guidance Program, and teaching French to grade six with the aid of television. Knowledge of good teaching practices is not quite as evident as it should be. If there is any single factor that contributes to good education it is good teachers. We in Pittsfield are fortunate to have a fine group of dedicated and energetic people on our staff. Our teachers have been recognized by others, as evidenced by the Institutes awarded them. Teachers so honored last year were Mr. Tibbetts in the field of mathematics, Mr. Savage in guidance, and Mrs. Perkins in science. Teachers are constantly trying to improve themselves so they might make a contribution to

the children they teach. During the past calendar year more than fifty per cent of our teachers took improvement courses. Aside from the persons already mentioned, Mr. Alden, Mr. Bastraw, Mr. Daubney and Miss Sanborn have studied in the area of guidance. Mr. Cilley has done work toward his Masters Degree in Wisconsin. Mrs. Perkins and Mrs. Bouchard are presently taking a course at the Boston Museum of Science. Mr. Miles has worked in the area of child physiology. Needless to say, our school benefits from these newly acquired skills and knowledge.

I appreciate the trust the citizens of Pittsfield have put in their school and faculty. We sincerely appreciate all the help received from our many friends and hope all will continue to work for a better school and community.

Respectfully submitted,

WALDREN P. LOJKO

REPORT OF GRAMMAR SCHOOL PRINCIPAL

School opened in September with an enrollment of 165 children.

We have just finished the Iowa Achievement Tests and find that our children are making good progress, each grade scoring above the average norm for the country.

The children in Grades Three and Five are getting much help and enjoyment from our television Science Program shown on Channel 11 from Durham. Grade Four has just started a most interesting series of lessons on New Hampshire.

We wish to thank all parents for their cooperation and interest in our school.

Respectfully,

RACHEL A. SHERBURNE
Principal

REPORT OF MEMORIAL SCHOOL PRINCIPAL

Things have moved along quite smoothly at Memorial School with no faculty changes during the past few years. However, the crowded conditions continue to give us a feeling of being pushed beyond the best teaching situations. A first grade class of twenty–five seems to lend itself quite well to good teaching but our first grades have an enrollment of thirty two and thirty three. We now have one hundred seven in grades one and two and one hundred twenty are expected for the year 1960–61.

Our registration date for next September's first grade has been tentatively set for April 14, 1960 with the cooperation of the State Health Service, our local school nurse, Mrs. Doris Drolet and Dr. Argue. This day of orientation has been a big help during the past ten years, to the parents and teachers in providing a much better start for the children in this complex process of education. This year we plan to make our efforts even more comprehensive.

The janitors are refininishing the old grade one desks in a soft shade of confetti green. We hope this much needed project can be completed.

1960 is the fiftieth anniversary of the Memorial School building. It has seen many changes over the years, no drastic ones to its architecture but I'm of the opinion it is housing many more pupils than its generous donors ever dreamed it could.

The faculty join me in expressing our gratitude for the friendly, happy atomsphere in which we are privileged to work.

February 14, 1960 Respectfully submitted,

HARRIET AMES
Principal

PITTSFIELD PLAYGROUND REPORT

Heading the list of activities this summer was the newly formed Indian League, featuring the Chichester Comanches, the Northwood Navajos and the Pittsfield Mohawks. Coaches were Mr. William Lance, Chichester; Mr. Everett Merryfield, Northwood; Mr. George Liouzis, Pittsfield.

The Peanut League was established for the younger and less experienced boys. Two teams, the New York Yankees, coached by Tommy Plante and Buddy Zinn and the Waukee Braves, coached by Bobby Watkins and Brian Keating, squared off in the Peanut World Series — won by the Waukees, four games to two.

A soft type ball (hard) was used as a safety measure as many of the boys were under seven but this took nothing away from the game of baseball.

We were very fortunate to have tennis instructions from residents of New York, Mr. and Mrs. Adrian Blumenfield, Mr. Irving Anker and Mr. Ernest Roth, all connected with the educational field.

A variety of games was played — Golf, Tennis, Peggy Ball, Pins, Checkers, Shot Put, Discus, Home Run Hitting, Throwing Contests, etc.

A Doll Carriage parade was held and the Pet Day produced numerous pets all sizes and kinds.

The Field Day Event, with boys and girls competing, was well received.

The Pittsfield Mohawks leaders were: Coach, George Liouzis; Assistant Coach, Jack Leduc; Score Keeper, Carolyn Franzeim; Bat Boy, Nicky Liouzis. Dr. John S. Argue gave members of the team free medical examinations before the start of the season.

Probably the greatest contribution the team made was their unselfish work for the "Jimmy Fund." A benefit movie was held and $155.82 in tickets were sold by the Indian League, the Mohawks sold $137.00 of the total. A check for $77.91 was sent to the Jimmy Fund (our share of the money). This was the largest amount that Pittsfield has sent in. We were thanked by the Jimmy Fund by the Boston Chapter and through the help of Mr. Thomas McKoan we were guests of the Boston Red Sox on September 1.

The Mohawks, Comanches and Navajos went by bus to Boston. Financial help was received from Green's Drug Store, $25; Lions Club, $10; Pittsfield Woman's Club, $10; Baptist Brotherhood, $5; Rotary Club, $5. Players were given money for their suppers along with bus fare.

The season came to a close with a banquet served by the Golden Rule Circle. All members were presented certificates and miniature loving cups signifying their championship. Other awards were given to boys for batting, runs, etc.

Tom A Hawk Awards were presented to Mr. Robert Gwinn and Mr. Bill Myers, umpires and guests of honor and to Mr. Thomas McKoan for his generous help throughout the season. Miss Carolyn Franzeim received a necklace from the Mohawks Team; George Liouzis received cuff links and a tie clasp.

Nail Biting	74	37

Cases of Communicable Diseases

Chicken Pox - 3	Whooping Cough - 0
Measles - 47	Mumps - 8
Impetigo - 4	Pediculosis - 2
	Scarlet Fever 0

The general condition of health among the school children seems to be very good, and we do believe that the hot lunches are a great help. The TB skin test was given this year to 562 children, sponsored by the TB Association, and given by their Nurse, Miss Constant Martin. There were 6 reactors but all negative cases as they were all x-rayed. We do hope to get more dental work done this year, as we have another dentist, Dr. Richard J. Pudlo, and we have a great need of more dental work being done. We certainly appreciate the help given us through the State and local organizations.

We wish to thank the parents, teachers and school officials for their kind cooperation with the School Health Program.

Respectfully submitted,

DORIS H. DROLET, RN
School Nurse

SCHOOL WARRANT

The State of New Hampshire

To the Inhabitants of the School district in the town of Pittsfield, New Hampshire qualified to vote in district affairs:

You are hereby notified to meet at the Greenleaf Auditorium in said district on the third day of March 1960, at 8:00 o'clock in the evening to act upon the following subjects.

1. To choose a Moderator for the coming year.

2. To choose a Clerk for the ensuing year.

3. To choose a Member of the School Board for the ensuing three years.

4. To choose a Treasurer for the ensuing year.

5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the district.

6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.

7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.

8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

9. To transact any other business that may legally come before said meeting.

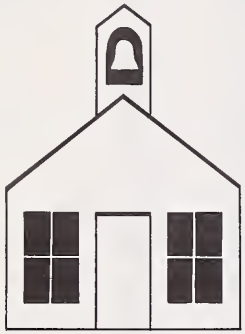

Given under our hands at said Pittsfield this 16th day of February, 1960.

School Board

REPORT OF

Special Study Committee

ON

Pittsfield Schools

1959-1960

As a result of action taken at the School District meeting in 1959, the moderator appointed the following committee to make a general review and study of Pittsfield schools:

Rev. Arlington Wry	Mr. John Perkins
Mrs. Mary Ayer	Mr. Harvey Marston
Mrs. Margaret Jenisch	Mr. Doria Riel
Mrs. Edith Mitchell	Mr. Kenneth Danis
Mrs. Ann Carpenter	Dr. John Argue

The appointment was announced in July 1959. Mr. Doria Riel asked to be relieved of his duties because of ill health and the moderator appointed Mr. Fred Franzeim to serve in his place.

The following constitutes a report of that committee to the school district:

The initial meetings of the committee as a whole were held in September and October of 1959. At that time the committee decided that the work could be done best if we divided the task into categories and divided the committee, each subcommittee to work on a specific project. These divisions were as follows:

Subcommittee on School Buildings
Mr. Wry, Mrs Jenisch, Mr. Danis

Subcommittee on School Financing
Mr. Perkins, Mr. Marston, Mr. Franzeim

Subcommittee on Curriculum
Mrs. Ayer, Mrs. Mitchell, Mrs. Carpenter, Dr. Argue

The individual reports follow:

The Subcommittee on Curriculum

The subcommittee on curriculum tried to examine as closely as possible the course of studies being offered in the Memorial, Grammar and High Schools. This was done by lengthy interviews with various teachers representing the three schools, including the three principals, by comparing our curriculum with information available on other school systems, and by studying a good number and variety of current sources on curriculum in general.

While we have not become professional educators, we have reached certain conclusions that we feel are accurate and possibly important.

The cooperation we received from everyone connected with our schools was excellent. Mr. Boynton came to Pittsfield to spend an evening with us and freely answered our questions until one o'clock in the morning. The friendy reception we received from the teachers was of a similar nature.

By and large we find the curriculum to be good. The course of studies throughout our schools meets the requirements set up by the State, and often exceeds them. The teachers appear to be well trained and sincerely dedicated to the education of our children.

Not all of the teachers are happy with all of the methods in use in our schools. This would perhaps be true to a certain extent in any school system. We have also talked individually with a number of parents. Not all of the parents are pleased with all of the methods in use in our schools. This also would certainly be true of any school system, but these two patterns of dissatisfaction served as part of our baseline from which to search for any parts of the curriculum that might appear to need improvement.

Fortunately, the curriculum problem has received a great deal of attention in recent years, both from lay public and professional sources, and a great deal of intelligent and informed opinion is available in books and pamphlets for study and comparison. We found that the areas of dissatisfaction to teachers and parents seem to coincide quite closely with the complaints registered by people in other parts of the country.

While this committee does not feel qualified to pass on the technical details of teaching, we do feel that certain general changes of approach might improve the existing level of education for our children. Again may we emphasize that these suggestions do not arise as a collection of our personal opinions only, but reflect the collective opinion as we have formulated it from the many sources consulted.

The following areas seem worthy of being brought up for consideration:

1.) READING. The study of reading is the one most basic and important tool provided by our schools. Poor reading ability makes proficiency in any other subject more difficult. The ability to read well opens the door to accomplishment in all other fields. In the past several years there has been an apparently increasing feeling on the part of educators that a return to a strong phonetic or phonic program would eliminate many reading problems, and would enable children

to learn more quickly to read and to read with greater comprehension. Phonics was discarded nearly completey at the peak of the so-called "progressive" era in education, and has gradually been creeping back as an integrated part of the reading method. Any strong emphasis on phonics is still frowned upon by the more progressive educators The committee finds itself in agreement with the large number of educators who have recently come forward in favor of a strong program in phonics as the best way of improving our reading instruction.

2.) ENGLISH. This field, like many others, is an area of controversy among the professional educators themseves. The opinions of some progressive educators have held sway for a number of years past, and the result has been the gradual weakening in English composition and the nearly complete abandonment of English grammar in many areas. This school of thought claims that these subjects are beyond the ability of most children and are not important anyhow. Fortunately, this attitude has never been stronglyrepresented in Pittsfield. Our children have been learning both grammar and composition.

In the course of our inquiry we had an opportunity to spend a day in Boston talking with the principal and observing classes in a school that has received national renown for its English program in grades 4, 5 and 6. We felt that the introduction of the methods used in this school would stimulate greater interest in these subjects on the part of our school children and would give them an extremely sound foundation in this basic and important field. A firmer background in English developed in the early grades would enable students to spend more time and spend it more productively on the interesting phases of English at the High School level. A better background here would also be very worthwhile to those who will study foreign languages. An English program that, while accelerated is still scaled to the abilities of the majority of the children would seem to us to be a very worthwhile aim.

3.) PENMANSHIP, the art of writing legibly, received its share of complaints, from both parents and upper grade teachers. There are two areas that may be involved here. First, our children begin to learn to write by using "manuscript writing", a type of writing that is actually very much like the printing used in their reading books. This method is generally accepted and is used so that the children can learn to write the letters in the same way that they read them. Cursive writing, the type of writing adults use, is not taught until the fourth grade. There are many people in primary education who feel that postponing the learning to this level although children learn it faster here, probably contributes to their inability later to use the cursive form speedily and clearly.

Certainly another reason for poor penmanship is the failure of many teachers in the higher grades to insist on neat, legible writing. If sloppy work were uniformly rejected a long step would be taken toward solving this problem This seems to be agreed by everyone consulted.

4.) MATHEMATICS is a field in which we found no serious problems. The method seems to have been to start with simple addition in the first grade and very gradually advance to the more difficult work. Most of the criticism that has come to our attention concerns the slowness with which the children progress from one phase of this work to the next. There may be some justification for these complaints.

We have been told that an entirely new concept of teaching arithmetic is now being perfected whichhas great promise for increasing the mathematical ability of all students. This, of course, should be looked into if the purchase of new arithmetic books for the primary grades is anticipated in the future.

5.) LANGUAGES. Our school administration has shown a willingness to take advantage of modern developments in education by making available to the sixth grade a French course being taught at the grade level via television. Information from other schools experimenting with this system indicates that T. V. French is much more effective if it is followed up by an explanation from the school French teacher. This also is being done here.

All of the sources consulted agree that a minimum of three years study is necessary to develop a working, functional knowledge of any foreign language. Most of the experts agree that three years of one language is preferable to two years of two different languages. This is another change that might improve our total foreign language instruction.

6.) SCIENCE. Our science program seems to be well taught. The regular use of films as instructional aids in Physics is an innovation that has apparently brought striking improvement in the teaching of this subject.

The science laboratory in the High School is inadequate in many ways. Any major revision here would be prohibitively expensive, but it might be well to consider relocating it if it becomes necessary, in the future to build an addition to the High School.

Science is one of the fields where a closer coordination of aims between high and elementary schools could be helpful. (See No. 8 below).

The available reference works in science at the High School are extremely limited. These should be added to and brought up to date. The High School library as a whole is mediocre, being neither very good nor vey bad, but the lack of scientific reference should be remedied.

7.) One of the problems facing teachers in the grade school is the difficulty of providing work that challenges the brightest student in the class but that is not too difficult for the slowest student in the class. At times both lose out because the work is too easy for the one, too difficult for the other. This is unfortunate, because our most intelligent students are not able to take full advantage of their ability, and the least gifted get lost in the shuffle. Pittsfield schools are not large enough to separate the grades into classes that truly represent "homogeneous grouping", but we feel that at certain levels all of the students would receive better education if the two classes were separated according to individual capacity, rather than in a random manner. This method is used very widely and if made flexible enough seems to bring very few objections.

ffl A further refinement of this attempt at individual attention is the incorporation into all grade levels of a definite plan of extra studies to be given to the most gifted students. We feel that most of our teachers are already making good use of this method, and would suggest only a more uniform application of it.

8.) Another problem in our school system is the relative isolation that seems to be caused by housing our pupils and teachers in three separate buildings. We find nearly unanimous agreement among the teachers consulted that a better understanding and closer correlation of aims among all the teachers of the school system would be a definite advantage. The separation of the buildings and the limitations of time place certain obstacles in the way of finding a solution to this problem.

9.) GUIDANCE. The faculty has done a great deal of work in setting up a well organized guidance program. This program has not yet been in effect long enough to evaluate it completely, but it is hoped that it will result in the wiser choice of courses and careers by the students.

10.) GENERAL SCHOLARSHIP. National as well as local factors have been important in recent years in increasing the value placed on academic excellence. Pittsfield students, like those elsewhere in the country, are beginning to place more emphasis on, and give greater recognition to, scholastic ability. The committee feels that this trend should be encouraged. Any feasible means to help make it desirable to students to maintain a high academic standing should be considered. Among these we would include such things as the organization of a national honor society chapter, the awarding of high school letters for exceptional academic standing, the awarding of more prizes for individual scholastic ability, etc. The parents of the children should certainly be among the first to encourage academic proficiency — this is a very important factor in their motivation. A desire for learning and a method for studying, two difficult traits to instill, should be among the acquisitions of every graduate of our school system.

Any methods that would increase the teachers' opportunity to teach should be considered. This might include the use of paid or volunteer lay people from the community to assist in correcting papers and in other non–teaching duties in the schools.

IN SUMMARY, we find the curriculum in general to be good. We have not gone into so much detail that we have studied intimately the curriculum of each separate class, but rather have tried to accomplish a general survey with emphasis on the areas that seem most basic and important. Our suggestions are made not in a spirit of criticism but in the hope that they will help the town and the school administration work together for the improvement of our educational opportunities. There do seem to be certain areas where changes could be made which would raise the level of education in our schools without substantially altering its cost. Any changes that can be made which will increase the interest of the students without diluting the program should be considered.

The three factors to be considered in the study of curriculum are 1.) the motivation of the students, 2.) the quality of the teachers, and 3.) the quality of the physical factors such as books, buildings, etc. The first two are the most important. Interested children with excellent teachers but mediocre buildings and books will do better than the same children with excellent buildings and books but mediocre teachers. Certainly we must have physical factors of a certain standard, but granting that, if our teachers and teaching methods are good, we need not worry much about the quality of our education.

Recommendations

1.) That a stronger phonics program in reading instruction be instituted in the first and second grades.

2.) That the Trainor method of English instruction be investigated with the aim of instituting it in the fourth, fifth, and sixth grades.

3.) That high standards of legible writing be required throughout the junior high and high schools.

4.) That the instruction in foreign languages be changed to include three or four years of one language even if it is necessary to drop the other.

5.) That a set of basic books in science be added to the High School library.

6. That the classes in the appropriate grades be divided according to the capacity of the children.

7.) That new methods of giving recognition to outstanding scholars be explored.

Report of Finance Comittee

WE SUGGEST —

1. The school boards in the future try to maintain as high quality of instruction as possible for the funds available.
2. That the per pupil cost of consolidation be investigated in comparison with per pupil cost in towns our size.
3. That the proportion of the tax dollar for schools be maintained, not decreased, in the over all rise in town–school costs ahead.

Report of the Space Committee

A Glance at Our Space Condition — As your Committee we have attempted to cover as much ground as possible at this time, and if further study is requested as to cost, etc., of our needs, we would be glad to carry out that study. Below is listed our findings and we leave it to you, the public to draw your own conclusions.

GRAMMAR SCHOOL BUILDING — Old, often condemned, we find this building quite adequate to meet the present enrollment, and if no further grades are placed there, for a few years to follow. We should not forget the building is old and time will bring need for new space.

MEMORIAL SCHOOL BUILDING— Erected fifty years ago to meet the need of that period, sometime later two rooms were constructed in the basement to alleviate crowded quarters. These two rooms were approved by the State Commission on Education just on a temporary basis. There is a great possibility that provisions will soon have to be made for a third grade — if so, where shall the class meet?

HIGH SCHOOL BUILDING — For the present year, and possibly for another, we find that by a little squeezing a little juggling, and a considerable readjusting, pupils now enrolled, and with a sharp increase for next year, can be handled. However, with the anticipated increase of students from year to year for the next five years the demands for more rooms becomes a "must". Now is the time to start planning that these needs may be met. We present for your consideration some ideas that may help solve the problem.

1. An extension could be built to the present High School building providing from 2 to 4 new classrooms.

2. The thought has been injected that if all classes (1 to 12) were under one roof the maintenance would be less than that of our present system.

3. A Junior High School unit including grades 7, 8, and 9 could be built on present school property near the High School.

4. With great emphasis upon the erection of Consolidated Schools throughout our State it might be well to ask if Pittsfield would benefit, and if so, we should approach our neighboring towns and seek their cooperation.

Respectfully submitted,

MRS. ALFRED JENISCH
KENNETH M. DANIS
REV. ARLINGTON E. WRY
